

Technical Awareness Group (TAG) Meeting 1 — Agenda

A Decision-Support Simulation Platform for Evaluating Construction and Demolition Debris Recycling Policies in Florida Counties

Sponsored and funded by the William W. “Bill” Hinkley Center for Solid and Hazardous Waste Management

Date: Thursday, September 10, 2026

Time: 1:00 p.m. – 2:00 p.m. Eastern

Format: Online (Zoom)

Chair: Navid Nickdoost, Ph.D., Principal Investigator, University of North Florida

Agenda

1. Welcome and introductions — Principal Investigator, research team, and TAG members
2. The role of the Technical Awareness Group — Hinkley Center
3. Research overview — Principal Investigator
 - Problem and objectives: C&D diversion across Florida counties
 - Actors represented in the simulation and how they make decisions
 - The four project phases
 - Policy scenarios to be tested
 - How the model will be validated, including the TAG's role
4. Progress to date — review of county C&D ordinances
5. Next steps and schedule — data collection, conceptual model, and TAG Meeting 2
6. Discussion and TAG input

The meeting was video recorded. The recording and the approved minutes are posted on the project website: <https://rise-research-lab.github.io/cd-recycling-policy/>
